

Text for website/social media/text campaign

This is suggested text that can be used across your website, a text campaign or any of your social media accounts. Feel free to edit any of these messages as you see fit, this is simply a guide to help you make the most of your partnership with Push Doctor.

Website

We are now providing video consultations with the leading online GP provider, Push Doctor. This means there will be more availability for our patients to access NHS GPs via video appointment, with the option to receive prescriptions, sick notes and referrals from the comfort of your own home and at a time that suits you.

The practice remains open as normal for telephone and face-to-face consultations; video appointments are simply an additional, complimentary service for those who would prefer to be seen from home, and are usually available quicker than face-to-face appointments.

Click [here](#) to find more information about how video consultations work. We hope you welcome this expansion and modernisation of our services as openly and enthusiastically as we do.
